

Instructions

1. Each participant will receive with the congress documentation a $\frac{1}{4}$ of an image. During the Welcome Reception (Science Park, Sunday, July 12th, 2020) he/she must find out another three participants with the remaining three images so that the image is completed.
2. When the image is completed, they will receive at the congress secretary a second piece with a “Fallen Columns” game to be completed. By rearranging the letters in each column a sentence from the corresponding chapter of Tales of the Alhambra will appear.
3. Once completed, they will receive at the congress secretary a third hint: a character of the chapter has to be guessed. Names of animals, fruits, etc. have to be found by rearranging the letters, once done, the shadowed letters will show the character. As an additional hint a QR code links to the chapter in which the character appears
4. Once found, the participants will receive at the congress secretary the final piece with a QR to read the complete chapter of Tales of La Alhambra.

The teams that find the solution will receive a present from the congress organization.
